

Harlington Lower School Community Forum

15th January 2024

Thank you for coming.

How can the school and the community work closer together?

How can we help each other?

Are there events/activities that children could take part in to develop their understanding of citizenship?

Are there places or events in the village that the choir could sing at?

Are there events that we could organise together as community events?

Are there people in the community who could enrich our curriculum? e.g. talking about World War 2.

Are there people who would volunteer to run extracurricular clubs?

How else could we work together?
